

Stainless steel cutlery trolley h21590

Professional stainless steel cutlery trolley, 630x400x980 mm. Robust structure with 2 containers and shelf for dining room organization.

The **h21590** cutlery trolley is a professional solution designed to optimize the management of tableware and workflows in high-turnover contexts such as hotels and restaurants. Made entirely of **stainless steel**, the device guarantees the highest hygienic standards, effectively resisting corrosion and the daily wear and tear typical of catering environments.

The functional configuration includes dedicated spaces for separating cutlery and a support surface for bulky items such as plates, glasses or cups, facilitating tidying and dining room set-up operations. Movement is made agile and safe thanks to an integrated system of high-smoothness wheels.
