

Stainless steel dish trolley h21591

Stainless steel dish trolley h21591, 1060x580x910 mm. Integrated system with 3 flat containers and 2 bins for waste and cutlery.

The **dish trolley h21591** is a professional solution designed to optimize clearing and tidying operations in high-density catering environments. The structure entirely made of **stainless steel** ensures superior resistance to corrosion and ease of sanitization essential in food environments. The ergonomic design integrates several storage units to allow immediate differentiation between dirty dishes and organic waste, reducing handling times between the dining room and the washing area.
