

Stainless steel dressing trolley 3 drawers h902_07

Stainless steel trolley with 3 drawers and 1 shelf with a raised edge on 4 sides. Dimensions: W. 800 x D. 430 x H. 840/910 mm.

The **hospital dressing trolley with 3 drawers and a stainless steel shelf with a raised edge** on 4 sides is a high-quality device, designed to optimize efficiency and safety during dressing procedures. Its **sturdy and durable structure** is made of premium materials, ensuring reliability and ease of maintenance over time. The stainless steel shelf is surrounded by a raised edge on all four sides, which prevents tools and materials from falling during transport and use, keeping the workspace tidy and safe. The three drawers provide ample space for organizing and storing medical instruments, sterile materials, dressings and other accessories needed during clinical procedures. Equipped with **4 high-quality swiveling wheels with a diameter of 75 mm**, the trolley can be easily moved between various hospital departments. **Two of the four wheels are also equipped with brakes**, to ensure stability and safety during use. The trolley comes complete with a **container** and, as an **optional**, it is possible to purchase a **stainless steel waste basket**.

Technical features:
