Stainless steel electric foot dryer h785_07

Professional electric foot dryer in satin stainless steel with HEPA H13 filter. Fast drying in 8-10 seconds and automatic laser activation.

The **professional electric foot dryer** is an advanced solution designed to ensure hygiene and comfort in high-traffic environments or care contexts. Characterized by a **reinforced satin stainless steel casing** with antibacterial coating, the device offers superior resistance against wear and vandalism. The system is equipped with an **automatic laser sensor** that instantly activates a homogeneous air jet via **Multi Jet** mode, ensuring deep and effective drying even in interdigital spaces. The integration of air filtration and sanitization technologies makes it an indispensable aid for maintaining high sanitary standards, solving moisture and bacterial contamination issues typical of humid environments.

Technical features

- Dimensions: W.16.45 x D.17.74 x h.27.74 cm
- Weight: 3 kg
- Material: Reinforced satin stainless steel casing
- Frequency: 50-60 Hz
- Energy consumption: 828 W
- Current: 3.80 Amps
- Electrical insulation class: Class I
- Air speed: 452 km/h
- Drying time: 8-10 seconds
- Noise level: 68 dB
- Number of motors: 1
- Motor speed: 30,000 rpm
- Activation system: Laser sensor
- Sanitization technology: UV lamp and titanium catalyst
- Filtration: HEPA H13 filter (99.97% efficiency on suspended particles)
- Maintenance: Filter replacement required every 90 days
- Hygienic safety: Integrated antimicrobial system
- Air delivery: Multi Jet mode
- Acoustic comfort: ADS (Acoustic Dampening System)
- Certifications: CE certified, Low Voltage Directive (LVD) 2014/35/ UE, 2014/30/ UE
- EMC regulations: UNE-EN 60204-1 2007+cORR:2010; UNE-EN 61000-3-2:2014; UNE-EN 61000-3-3:2013; UNE-EN 61000-6-1:2007+A1:2012 (IEC 61 000-6-1_2005) EMC; UNE-EN 61000-6-3:2007+A1:2012 (IEC 61 000-6-3:2005) EMC
