

Stainless steel fast food tray trolley h314_66

Professional tray trolley in **AISI 304 stainless steel** single column. Capacity **10 Euronorm (EN) trays**, robust 20x20 mm square tube structure and 125 mm wheels with bumpers. Designed to ensure order and maximum hygiene in canteens, fast-food outlets and pastry laboratories.

The **AISI 304 stainless steel Euronorm tray trolley** is the excellent logistical solution for managing standard EN trays in professional environments. Designed to optimize workflows in canteens, bakeries and self-service restaurants, this model allows for the storage and transport of up to 10 trays with precision, maximizing the space available in the kitchen or dining room.

The structure is made of **18/10 stainless steel** with 20x20 mm square tubing, offering a perfect balance between lightness (only 12 kg) and structural solidity. The runners, also in 18/10 steel, are specifically calibrated for the Euronorm format. Movement is made smooth by the 4 swivel wheels of 125 mm, protected by **circular rubber bumpers** that cushion accidental impacts, safeguarding both the trolley and the room furnishings.

Technical features

- **Structure material:** 18/10 AISI 304 Stainless Steel (20x20 mm square tube)
- **Runner material:** 18/10 Stainless Steel
- **Capacity:** 10 Euronorm (EN) trays
- **Handling:** 4 swivel wheels Ø 125 mm
- **Protection:** Non-marking rubber bumpers
- **Total dimensions:** W 490 x D 600 x H 1450 mm
- **Weight:** 12 kg
- **Optional:** Possibility to mount wheel kit with brake (on request)

* Trays not included. Product complies with HACCP health and hygiene regulations.

INFORMATION

- **capacity** 10 vassoi
- **Height in millimetres** 1450.000000
