

Stainless steel laundry trolley for hospitals h13_330

Professional laundry trolley in AISI 202 stainless steel, 65x55x90 cm, with removable bag for hygienic management in healthcare settings.

The **H13_330 laundry trolley** is a professional piece of equipment specifically designed to support internal logistics operations in **hospitals, clinics, nursing homes (RSA), and medical environments**. The structure is entirely made of **AISI 202 stainless steel**, an alloy that guarantees high mechanical resistance and a surface refractory to bacterial proliferation, facilitating the sanitization cycles required by healthcare protocols.

The unit is configured for the optimization of collection and transport of **dirty laundry**, minimizing direct operator contact with potentially contaminated textiles thanks to the removable bag system. The ergonomic design and studied dimensions allow for easy use even in contexts characterized by limited space or high passage density.

Technical features

- **Structure:** High-resistance AISI 202 stainless steel.
- **Collection system:** 1 removable bag in washable technical fabric.
- **Movement:** 4 swivel wheels for 360-degree rotation.
- **Dimensions:** W 65 x D 55 x H 90 cm.
- **Configuration:** Tubular frame with optimized section for stability.
