

Stainless steel outdoor umbrella stand h770_20

Professional AISI 304 stainless steel umbrella stand for outdoor use. Dimensions 34x35x50 cm, with a dedicated compartment for folding umbrellas and water drainage.

The **h770_20 umbrella stand** is an entrance management system designed to withstand the most severe environmental conditions. Entirely made of **AISI 304 stainless steel**, it solves the critical issues related to oxidation and aesthetic deterioration typical of outdoor accessories. The structure is designed for professional contexts such as hotel entrances, executive offices, and catering, where durability must be combined with user safety and the order of common areas.

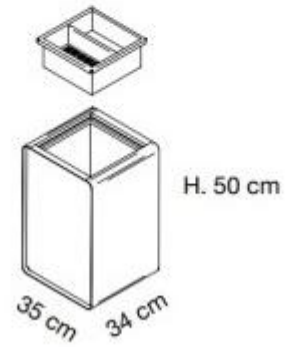

Technical features

- **Material:** Satin-finished high-resistance AISI 304 stainless steel.
- **Structure thickness:** Robust 0.8 mm barrel.
- **Safety:** Double-thickness reinforced lateral edges, rounded and protruding by 10 mm for accident prevention.
- **Collection system:** Removable internal tray in soft elastomer, with shockproof and sound-absorbing function.
- **Upper ring:** Dimensions 240x240 mm with anti-extraction safety lock.
- **Integrated compartment:** Specific perforated compartment for folding umbrellas (W 120 x D 240 x H 100 mm).
- **Water management:** System of holes on the bottom for rainwater drainage and prevention of stagnation.
- **Stability:** Structural preparation for permanent ground fixing.
- **Overall dimensions:** W 34 x D 35 x H 50 cm.
