

Stainless steel oxygen cylinder holder h5540

AISI 304 stainless steel oxygen cylinder holder for Ø160 cylinders, with 2 Ø150 non-marking wheels and securing strap. Ideal for healthcare facilities.

The **oxygen cylinder holder** is an essential piece of equipment for hospitals, clinics, and nursing homes that need to safely transport medical gas cylinders within their facilities. This model is made of **AISI 304 stainless steel**, a material resistant to corrosion and contamination, ensuring durability and hygiene in the healthcare context.

The trolley is specifically sized for cylinders with a **diameter of 160 mm** and is equipped with practical transport solutions: two 150 mm diameter **non-marking grey rubber wheels** ensure smooth movement without damaging floors, while **straps with buckles** keep the cylinder stable during movement. The **non-toxic rubber handle** and **ergonomic grip** reduce operator fatigue during prolonged use.

Technical features

- Compatibility: cylinders with Ø 160 mm
- Wheels: 2 in non-marking grey rubber, Ø 150 mm
- Fixing system: straps with buckles
- Handle: non-toxic rubber
- Grip: ergonomic
- Structure: AISI 304 stainless steel
- Weight: 3.5 kg
- Finish: Pickled 2B Stainless Steel
- Overall dimensions: H 1100 × D 325 × W 300 mm
- Base dimensions (rings height): H 650 × D 295 × W 175 mm
