

## Stainless steel pedal bin h20\_189

Professional 80-liter bin in AISI 430 stainless steel with galvanized internal bucket and rubberized pedal compliant with HACCP regulations.

This **professional 80-liter bin** represents a robust solution for waste management in environments that require high hygienic-sanitary standards. Built with an external body in **AISI 430 stainless steel** with a bright finish, it integrates an internal bucket in **galvanized steel** that facilitates emptying and protects the structure from any liquid leaks.

The pedal opening system, made of metal with a non-slip rubber coating, allows for waste disposal without any manual contact with the surface, ensuring full compliance with the **HACCP method**. The base is finished with a rubber profile that ensures stability during use and protects delicate floors.

## Technical features

- **Body material:** AISI 430 stainless steel with bright finish
- **Internal container:** Removable galvanized steel bucket
- **Capacity:** 80 liters
- **Dimensions:** W.420 x D.420 x h.765 mm
- **Opening system:** Metal pedal with rubber coating
- **Base:** Protective and non-slip rubber
- **Compliance:** Suitable for HACCP protocols
