

Stainless steel prep sink h601_34

Veterinary washing sink with pull-out spray mixer. Internal sink depth: 37 cm. Dimensions: W140xD70xH85 cm.

The pre-surgical sink is suitable for veterinary clinics where surgical operations are regularly performed. Thanks to this type of product, it is indeed possible to eliminate dirt and bacteria and prevent the table and surgical instrumentation from being contaminated.

The sink is made of Aisi 304 stainless steel and is equipped with a molded bottom for perfect disinfection and a **pull-out spray mixer**. Thanks to the sturdy structure and resistant materials, the sink is suitable for all types of pets.

It is also possible to choose between the variant with mixer connection on the **right** or on the **left**.
