Stainless steel recycling bin with lid and pedal h957_44

Stainless steel recycling bin, 30 L with pedal and lid. Dimensions: Ø 29 x H 63 cm. Weight: 3 kg. Label color: yellow 1021.

The **H957_44 recycling bin** is a **functional and hygienic solution** for waste management in public spaces and professional environments, such as **offices, canteens, schools, common areas, and indoor urban furniture**. Made of **0.4 mm thick AISI 430 stainless steel**, this container combines **resistance, design, and practicality**, offering long durability even in contexts subject to intensive use.

The bin has a **capacity of 30 liters** and is equipped with a **lid with pedal opening**, which allows for **contact-free use** and promotes high hygiene standards. The **adhesive labels** positioned on the lid and front, in **Spanish and yellow**, facilitate visual and functional **recycling**, making it suitable for multilingual contexts.

Inside there is a **removable polyethylene bucket**, which facilitates emptying and cleaning. The **black hinges and finishes** in plastic material complete the product, offering robustness and stability.

The container complies with **current fire stability regulations** and has been subjected to **abrasion and impact resistance tests**, as well as checks on **dimensions and safety**, guaranteeing high and certified quality.

Buy the **H957_44 container** now for efficient and hygienic waste management. Contact us for quotes on multiple supplies.
