

Stainless steel service cabinet on wheels h684_150

Professional service cabinet on Ø 125 mm wheels entirely made of AISI 304 stainless steel. Equipped with two open upper shelves, two cutlery drawers, a lower compartment with two doors featuring adjustable shelves, and a waste collection hole.

The **stainless steel service cabinet on wheels** (model h684_150) is a professional mobile furniture element, specifically designed to optimize clearing, distribution, and waste management operations in catering and hospitality contexts. Developed for **restaurants, hotels, banquet halls, corporate canteens, catering, and professional kitchens**, this module addresses the need for a fluid, hygienic, and easily repositionable workstation. The system solves the operational problem of **simultaneously organizing clean cutlery, temporary storage of tableware, and the sorted or unsorted collection of waste directly in the hall**, thanks to a multi-compartment structure equipped with an upper waste hole. Built entirely in thick AISI 304 stainless steel, the cabinet ensures maximum resistance to corrosion, deep sanitization, and safe mobility thanks to swivelling wheels with integrated brakes and a robust side push handle.

Technical characteristics

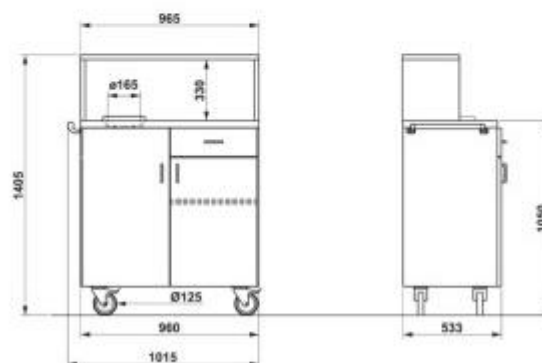

- **Equipment type:** monobloc service cabinet on wheels
- **Structure, paneling, and finish material:** 100% AISI 304 stainless steel (SST)
- **Upper section configuration:** open top part consisting of two useful shelves
- **Useful height of the upper open compartment:** 330 mm
- **Intermediate section configuration:** 2 drawers dedicated to cutlery organization and storage
- **Lower section configuration:** compartment closed by 2 lower doors, internally equipped with height-adjustable shelves
- **Waste management system:** equipped with an integrated hole on the surface for waste collection
- **Waste hole size / diameter:** Ø 165 mm
- **Movement devices:** mounted on wheels with Ø 125 mm diameter, 2 of which are equipped with a parking brake
- **Maneuvering accessories:** equipped with a practical push handle inserted on the left side
- **Cabinet body width (excluding handle):** 960 mm
- **Maximum overall width (including push handle):** 1015 mm
- **Width of the upper open shelf:** 965 mm
- **Total depth of the cabinet:** 533 mm
- **Intermediate worktop height:** 1050 mm
- **Overall total height of the cabinet:** 1405 mm
