

Stainless steel service trolley for catering h956_09

AISI 304 stainless steel service trolley with 3 shelves, retaining edge and non-marking wheels. Dimensions 100x60x96 cm. For HoReCa and canteens.

The **h956_09 service trolley** is a professional equipment designed to optimize workflow within industrial kitchens, hotels, and canteens. Entirely made of **AISI 304 stainless steel**, this tool guarantees superior resistance to corrosion and biological neutrality essential in the food sector. The supporting structure in **steel round tube** provides structural stability that prevents bending even under maximum load conditions.

The three smooth shelves integrate a **40 mm perimeter retaining edge**, designed to prevent the accidental slipping of dishes, GN containers, or tools during transit over uneven surfaces. Movement is facilitated by an ergonomic handle and a system of **four 125 mm swivel wheels**; the non-marking coating preserves the integrity of the floors, while the two parking brakes ensure immediate locking of the trolley during loading and unloading operations.

Technical features

- **Material:** High-thickness AISI 304 stainless steel
- **Configuration:** 3 smooth shelves with retaining edge (H 40 mm)
- **Rolling system:** 4 non-marking swivel wheels Ø125 mm, 2 of which are equipped with foot brakes
- **Frame:** Electrowelded stainless steel round tube structure
- **Maneuverability:** Integrated ergonomic towing handle
- **Overall dimensions:** W 100 x D 60 x H 96 cm
