

Stainless steel service trolley h09_253

AISI 304 stainless steel service trolley with 3 soundproofed shelves, dimensions 100x70x104 cm and 100 kg load capacity for intensive professional use.

The **h09_253** service trolley is a logistical solution designed for environments requiring high hygiene standards and structural resistance, such as professional kitchens, canteens, and healthcare facilities. Made entirely of **AISI 304 stainless steel**, it guarantees excellent resistance to oxidation and a long operational life. The structure rests on a 25 mm diameter tubular frame, which provides stability during the transport of loads up to 100 kg.

Technical specifications

- **Material:** AISI 304 stainless steel with satin finish
