

Stainless steel service trolley with handle h492_06

Stainless steel service trolley with 2 shelves, equipped with an ergonomic handle and 5 wheels for precise movement in professional environments.

The **h492_06** service trolley is professional equipment designed to optimize the transport of food, dishes, and equipment within industrial kitchens and collective settings. The **stainless steel** structure ensures maximum resistance to corrosion and the ease of sanitization essential in the food sector. The distinguishing element of this model is the **raised push handle**, designed to allow the operator to maintain an ergonomic posture, preventing muscle fatigue and ensuring a secure grip during maneuvers.

Technical features

- **Material:** High-resistance stainless steel.
- **Configuration:** 2 shelves with shaped and raised 10 mm edges for liquid containment.
- **Movement system:** 4 swivel wheels Ø 200 mm + 1 central fixed wheel Ø 200 mm (2 wheels equipped with brakes).
- **Stability:** Shelves welded to the side uprights with anti-vibration panels in synthetic material.
- **Load capacity:** "Z" structural reinforcement guaranteeing a capacity of 80 kg for each individual shelf.
- **Shelf dimensions:** 1000 x 600 mm.
- **Clearance between shelves:** 510 mm.
- **Upper shelf height:** 920 mm.
- **Total dimensions:** L.1100 x D.700 x H.1020/1250 mm.
- **Weight:** 35 kg.
