

Stainless steel soap dispenser h21867

Liquid soap dispenser in AISI 304 stainless steel, 1200 ml capacity. Horizontal installation and drip-free system for professional hygiene.

The **professional liquid soap dispenser** is designed to meet the needs for hygiene and durability in high-traffic contexts. Made of **AISI 304 stainless steel** with a white finish, this dispenser combines superior structural robustness with a modern and functional design. The external shell is characterized by a smooth surface that prevents the accumulation of dirt and facilitates daily sanitization operations.

To optimize management costs and maintain a clean environment, the device integrates a **drip-free dispensing system**, which prevents accidental product spills. The **horizontal installation** configuration makes it ideal for placement above washbasins or in spaces with vertical dimensional constraints.

Technical characteristics

- **Material:** High-resistance AISI 304 stainless steel
- **Capacity:** 1200 ml for high autonomy
- **Dispensing system:** Precision drip-free valve
- **Configuration:** Horizontal wall installation
- **Finish:** Protective white color
- **Dimensions:** 121 x 210 x 130 mm
