Stainless steel table with shelf h83326

Stainless steel work table with shelf, adjustable legs. Dimensions: W 60 x D 60 x H 90 cm.

The **H83326 stainless steel table** is a robust, safe, and functional solution for **professional kitchens in restaurants, canteens, food laboratories, hotels, and delis**. Built **entirely from stainless steel**, it offers a resistant and easy-to-clean **extra work surface**, ideal for **food preparation or supporting small and large appliances**.

The **60 x 60 cm worktop**, without a rear edge, is **reinforced with a double bridge** to ensure a **load capacity of up to 150-200 kg**. It is finished with **folded edges, welded and polished corners**, for safe and hygienic use, without sharp edges. The table includes a fixed **lower shelf** in stainless steel, ideal for storing tools, containers, or equipment, keeping the work area tidy and free.

The **4x4 cm square legs** are height-adjustable (between 85 and 90 cm) via the feet, to perfectly adapt to the work surface or other existing equipment. The **base is not adjustable**, but guarantees excellent stability on any surface.

The table is **supplied in flat packaging** and is **easily assembled in 10 minutes** thanks to the included tools. Perfect for those looking for a **robust, professional, and space-saving table**.

Make your kitchen more efficient with a solid and hygienic work table. Order the **H83326 stainless steel table** now or request a quote for multiple supplies.

FAQ:

1. **Is the table suitable for food use?**
   Yes, it is entirely made of stainless steel and complies with hygiene standards for professional use.
2. **Is the lower shelf height-adjustable?**
   No, it is fixed.
3. **Is assembly complicated?**
   No, it is very simple and takes about 10 minutes. Tools are included.
4. **How much weight can the top surface support?**
   Up to 150-200 kg, thanks to the reinforced structure.
5. **Does the table have a raised rear edge?**
   No, the top is completely flat, with no edge on the back.

Mini buying guide:
Stainless steel tables are essential to ensure a **clean, efficient, and safe** work environment.

Choose a table with a **reinforced top, welded edges, and smooth surface** to avoid dirt buildup and facilitate sanitation.

The H83326 model is ideal for compact spaces and offers **stability, high load capacity, and practicality** thanks to the lower shelf.

The **height-adjustable legs** allow the worktop to be adapted to the ergonomics of the staff.
