Stainless steel table with splashback length 200 cm h220_350

AISI 304 stainless steel work table, 200x60 cm, with 40 mm splashback, bottom shelf and adjustable feet for professional kitchens.

The **AISI 304 stainless steel work table** is a structural module designed for intensive use in professional kitchens, food laboratories and HoReCa environments. Thanks to the choice of a high-resistance metal alloy, the top offers a stable and safe support surface for food handling, ensuring maximum hygiene and ease of maintenance. The linear design is enriched by a 40 mm **rear splashback**, essential to prevent dirt infiltration between the unit and the wall, and by a bottom shelf that optimizes the storage capacity of heavy equipment.

Technical features

- **Material:** AISI 304 stainless steel with safety rounded edges
- **Dimensions:** length 200 cm, depth 60 cm
- **Operating height:** adjustable between 85 and 90 cm
- **Leg structure:** 40x40 mm square tube for superior stability
- **Splashback:** integrated, height 40 mm
- **Equipment:** reinforcing bottom shelf
- **Feet:** height-adjustable for uneven surfaces
- **Weight:** approx. 52 kg
