

Stainless steel towel rack h218_241

Straight towel rack h218_241 in satin AISI 304 stainless steel, 40 cm. Concealed wall fixing for frequent use. Dim: 25.3x425.3x70 mm.

The **Stainless steel towel rack h218_241** is a 40 cm straight bar designed for the professional equipment of high-frequency restrooms. This accessory addresses the operational problem of rapid degradation of furnishing elements subject to wear and used by a constant flow of people, guaranteeing a solid and stable support for drying towels. Intended for managers of commercial spaces, hospitality facilities, and interior designers, the towel rack is made of AISI 304 stainless steel with a satin finish, a material that ensures high durability and resistance to corrosion. The system is wall-mounted using the included fixing material with a concealed configuration, avoiding visible joining elements to improve aesthetics and ease of sanitization. The product is suitable for public environments and is available in various finishes.
