

Stainless steel tray emptying bin h110_79

Stainless steel tray emptier with flap door, 110 lt capacity, ideal for fast food and public establishments. Internal trolley on wheels for easy management.

The **tray emptier** is a specialized solution for waste management in high-turnover catering contexts. Designed for **fast food outlets, pizzerias, restaurants, rotisseries, and shopping centers**, it solves the problem of efficient collection of dirty trays while maintaining order and hygiene in the dining area.

The **stainless steel** structure guarantees resistance to corrosion and ease of sanitization. The system is divided into three functional elements: a top area for tray placement, a **front flap door** that allows for controlled emptying, and an **internal trolley on 4 wheels** that simplifies the replacement of the collection bag and the cleaning of the container.

Technical features

- **Material:** stainless steel
- **Door:** front flap
- **Internal bag holder:** stainless steel on 4 wheels
- **Feet:** adjustable
- **Capacity:** 110 liters
- **Dimensions:** W 445 × D 480 × H 1,255 mm
- **Weight:** 28 kg
