

Stainless steel tray trolley h09_264

AISI 304 stainless steel service trolley for 3 GN1/1 containers with soundproofed lower shelf. Dimensions 77x62x97 cm. Robust and hygienic.

The **h09_264 service trolley** is a professional solution designed for optimizing workflows in industrial kitchens and collective catering contexts. Made with a **25 mm round tubular structure in AISI 304 stainless steel**, it guarantees high resistance to corrosion and superior structural stability, essential for the safe transport of heavy loads. The design is configured to accommodate up to **3 GN1/1 containers** in the upper part, making it an indispensable tool for food preparation, sorting, and service.

Functionality is enhanced by an **AISI 304 stainless steel lower shelf**, expertly folded and equipped with **soundproofed** technology to reduce acoustic impact during movement in crowded environments. To ensure excellent maneuverability even in tight spaces, the trolley is equipped with four 125 mm diameter multi-directional wheels, integrated with rubber bumpers that protect furniture and wall structures from accidental impacts.

Technical features

- **Material:** High-resistance AISI 304 stainless steel
- **Upper capacity:** Housing for 3 GN1/1 containers (containers not included)
- **Lower shelf:** AISI 304 stainless steel, folded and soundproofed
- **Movement system:** 4 multi-directional wheels Ø 125 mm
- **Protection:** Corner rubber bumpers
- **Total dimensions:** 77 x 62 x h 97 cm
- **Structure diameter:** 25 mm round tubular
