

Stainless steel tray trolley h09193

Stainless steel tray trolley for 8 GN 1/1 trays (45x66x94 cm). Robust structure with multidirectional wheels and bumpers for catering.

The **professional tray trolley** is an indispensable tool for optimizing workflows in industrial kitchens, restaurants, canteens, and catering services. Made entirely of **stainless steel**, this model offers superior resistance to corrosion and guarantees the highest hygiene standards required in food preparation environments. The structure is designed to accommodate **8 GN 1/1 trays**, allowing for orderly storage and safe handling of both hot and cold preparations. Thanks to the base equipped with bumpers and multidirectional wheels, the trolley solves the problem of rapid transport between cooking and service areas, minimizing footprint and maximizing operational efficiency.

Technical features

- **Material:** high-resistance professional stainless steel
- **Capacity:** load capacity for 8 GN 1/1 trays
- **Distance between shelves:** 8 cm for easy product aeration
- **Movement:** 4 multidirectional wheels for smooth maneuverability
- **Protection:** integrated rubber bumpers above the wheels
- **Total dimensions:** W. 45 x D. 66 x H. 94 cm
- **Hygiene:** smooth surfaces compliant with HACCP regulations
