

Stainless steel tray trolley h22051

Compact stainless steel tray trolley for 7 GN 1/1 containers (45x62x101 cm). Equipped with upper worktop, safety locking system and silenced wheels.

The **professional GN 1/1 tray trolley** is a versatile and robust solution, designed to optimize operational processes in hotels, restaurants and canteens. Made entirely of **stainless steel**, this model combines the transport function with the preparation function thanks to the practical **integrated worktop**. The 25 mm square tube structure guarantees stability and durability over time, allowing it to accommodate up to **7 GN 1/1 containers**. For total safety during movement, the trolley is equipped with a locking system that prevents the accidental sliding out of the trays, making it ideal for catering services and dynamic professional kitchens.
