

Stainless steel veterinary cage h938_05

Double stainless steel veterinary cage with removable dividers, thermal-acoustic insulation. Dimensions W 101.2 x D 72 x h 60 cm. For clinics and surgeries.

The double stainless steel cage h938_05 is a structured solution for veterinary clinics, shelters, and surgeries that need to house multiple animals simultaneously while maintaining high standards of hygiene and comfort. Built entirely of **stainless steel**, it resists corrosion and allows for quick and effective cleaning, ensuring a constant hygienic environment for patients.

The cage is equipped with **removable dividers**, which allow the structure to be transformed from two separate spaces into a single one, adapting to different size and animal species needs. The **lining with thermal and acoustic insulation** reduces noise and maintains an appropriate temperature, a crucial factor for limiting stress during hospitalization. The generous dimensions (W 101.2 x D 72 x h 60 cm) guarantee sufficient space without compromising on well-being.

Technical features

- **Material:** 100% stainless steel for corrosion resistance and durability in intensive use
- **Dividers:** Removable for configuration into two separate spaces or a single one
- **Insulation:** Thermal and acoustic for a quiet environment and controlled temperature
- **Dimensions:** Length 101.2 cm, Depth 72 cm, Height 60 cm
- **Capacity:** Two animals separately or one in an expanded space
