Stainless steel wall cabinet 1 shelf and sliding doors L.120 cm h09_248

Professional 120 cm stainless steel wall cabinet with double-skinned sliding doors and adjustable shelf. Hygienic and space-saving solution for HoReCa kitchens.

The **stainless steel wall cabinet with double-skinned sliding doors** è a technical furniture element designed for the rational organization of spaces in professional kitchens and food laboratories. The modern and minimal design is combined with a robust structure, designed to withstand the typical stresses of an intense operating environment. The presence of sliding doors allows access to the content without frontal obstruction, making it ideal even for narrow passages.

The functional core consists of an **adjustable intermediate shelf**, equipped with an **Omega reinforcement** system that increases its load capacity and mechanical stability. This technical feature makes it suitable for storing heavy equipment, large crockery, or cleaning product stocks, maintaining structural integrity over time.

Technical features

- **Material:** High-resistance stainless steel
- **Door configuration:** Sliding and double-skinned for greater rigidity and silence
- **Shelf:** Intermediate, height-adjustable with Omega reinforcement
- **Installation:** Wall mounting brackets included in the supply
- **Dimensions:** L. 1200 x D. 400 x h. 650 mm
- **Weight:** 31.7 kg
