

Steel and wood workbench with 5 drawers h870_13

Professional workbench 1750x800 mm in steel and 40 mm beech multiplex, with a 5-drawer high-capacity drawer unit and floor fixing.

The **professional workbench** is a technical solution designed to optimize operations within workshops, industrial laboratories, and manufacturing departments. Thanks to the combination of a high-resistance work surface and an integrated storage system, this table allows for the rational organization of tools and components, improving the efficiency of assembly and maintenance processes. The structure is conceived to guarantee maximum stability during the most demanding tasks, offering ergonomic and durable support over time.

Technical features

- **Total dimensions:** L. 1750 x W. 800 x h. 890 mm
- **Worktop:** Beech multiplex wood with 40 mm thickness
- **Supporting structure:** Powder-coated steel sheet with support equipped with perforated base plates for mechanical floor fixing
- **Drawer unit configuration:** 1 monobloc drawer unit with 5 drawers
- **Drawer heights:** Differentiated vertical development (50 mm, 100 mm, 100 mm, 200 mm, 300 mm) for storing different types of material
- **Load capacity:** Individual capacity for each drawer equal to 75 kg
- **Customization:** Metal components available in RAL colors from the chart (to be specified at the time of order)

Please indicate the desired RAL color for the steel sheet components within the color chart during the ordering phase. Any variants not present in the catalog are available upon request following a quote.
