

Steel bike rack for public spaces h330_30

Leaf-shaped bicycle rack made of steel sheet.

This pleasant bike rack is made following natural and organic shapes, the structure is in a single leaf-shaped steel sheet that accommodates the bicycle wheels allowing for secure anchoring, thanks to the design of the holes made by laser cutting that recall the natural veins of the leaves. Essential and minimal in its form, the bicycle rack is available in numerous colors giving the urban furniture a pleasant and cheerful touch.

Technical Features:

- N° 4 leaf-shaped modules
- Material: 6 mm thick steel, laser-cut, galvanized and painted.
- Base consisting of a plate with 3 holes of 12 mm diameter, for ground fixing.

FINISHES Available in color:

- Pure white RAL9010,
