

Steel bike rack h32804

Steel tube bike rack. Available in 3 and 5 spaces versions. Anti-corrosion treatment: electro-galvanizing.

Bike rack with an **innovative design** with rounded shapes, it is ideal for both private use and as an element of street furniture.

The **steel tube** structure consists of a frame and shaped wheel-holder elements. Ground anchoring is done via a cap-shaped fixing foot made of Nylon reinforced with "Fiber Glass". To guarantee better resistance to atmospheric agents, the metal parts are made with a specific anti-corrosion treatment.

To optimize space, the bike rack is designed to allow parking from both sides.

This rack is available in 3 and 5 spaces models.

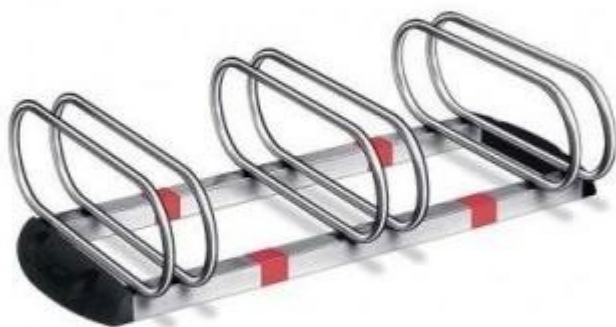

Technical features:

- Dimensions (W. based on the no. of spaces): W.926 (3 spaces) - 1626 (5 spaces) x D. 510 x h.226 mm
- Structure: steel tubes
- Anti-corrosion treatment: electro-galvanized
- Fixing feet: cap-shaped in polyamide reinforced with glass fiber
- **Fixing: to be bolted to the ground using screws and nylon plugs**

Upon request and subject to a quote, the bike rack is available with brackets and shear nuts.
