Steel boundary bollard h109177

Steel boundary bollard 80x80 mm, Made in Italy. Galvanized and painted finish, height 1010 mm. Can also be used as a bike rack.

This boundary column represents a robust and versatile solution for managing urban spaces and transit areas. Entirely made in Italy, the structure uses **80x80 mm** welded steel plates, ensuring high mechanical resistance and long-lasting stability. The surface treatment, which combines galvanization and thermosetting polyester powder coating, ensures total protection against corrosion and atmospheric agents, making the bollard ideal for prolonged outdoor exposure.

Technical features

- **Material:** High-quality steel
- **Production:** 100% Made in Italy
- **Column section:** 80 x 80 mm
- **Overall height:** 1010 mm
- **Finish:** Hot-dip galvanization and thermosetting polyester powder coating
- **Fixing system:** 200 x 200 mm square base plate with holes for ground anchoring
- **Available colors:** Micaceous gray, fir green, deep black
- **Additional functionality:** Can be used as an anchoring point for bicycles
