

Steel boundary bollard h424_48

Rectangular bollard in galvanized and stainless steel, 11.5x11x80 cm, with fixing plate for the delimitation of urban areas and parking lots.

The **bollard for public spaces** is an urban furniture element designed for pedestrian flow management and the safety securing of specific areas. Made with a **rectangular-shaped** structure, this device offers a robust and durable solution for the delimitation

of sidewalks, residential areas, and parking lots. The combination of **galvanized steel** for the main body and a **stainless steel frame** at the top gives the product high mechanical resistance and a sober design suitable for modern architectural contexts.

Technical features

- **Dimensions:** W 11.5 x D 11 x H 80 cm
- **Body material:** High-resistance galvanized steel
- **Upper finish:** Stainless steel decorative frame
- **Fixing system:** Base plate designed for ground fixing using expansion bolts
