

Steel bus waiting shelter h350_87

Bus waiting shelter with roof h350_87

Dimensions in cm: 295x106x234 h

Urban furniture bus shelter structured with steel tubular frames and a polycarbonate roof. The entire structure is supported by 5 bases to be bolted to the ground, with polycarbonate sheeting covering one side and the rear panels, essential for winter periods as citizens can shelter from rain and wind. The roof is slightly inclined to assist rainwater drainage.

Technical characteristics:

- Shelter material: galvanized steel
- Panel material: polycarbonate
- Inclined roof for rainwater drainage
- Shelter dimensions: (cm) 295x106x234 h cm
