Steel dog waste bin h516_04

Powder-coated steel dog waste collection container, 45L, 350x250x930mm, with internal frame for plastic bags.

Specialized container for the collection of dog waste, designed to keep public areas and common spaces clean and tidy. Made of **powder-coated steel** with a lacquered steel sheet door, it offers a robust and durable structure. The simple and linear design makes it discrete in urban environments, while the **internal steel frame** allows for practical housing of plastic bags for the hygienic disposal of waste.
