

Stainless steel urban furniture fountain h109101

Outdoor fountain in electropolished stainless steel with push-button tap and cast iron drain. Dimensions 250x700x1000 mm, minimal design.

This **outdoor fountain** is characterized by an essential and minimal design, designed to integrate into modern architectural contexts, public parks, and private green areas. The supporting structure is made of **round stainless steel tubular**, a material chosen for its excellent resistance to corrosion and atmospheric agents. The system is designed to facilitate maintenance operations: the upper part is closed by a steel cap fixed with screws, easily removable to access the internal components of the tap.

Technical specifications

- **Dimensions:** W. 250 x D. 700 x H. 1000 mm
- **Structure material:** round stainless steel tubular
- **Finish:** stainless steel with electropolished sandblasting treatment
- **Fixing:** square plate welded to the base with 4 holes for floor bolting
- **Tapware:** stainless steel front push-button tap with return spring (normally closed)
- **Water connection:** 1/2" threaded terminal connected to the internal stainless steel pipe
- **Drainage system:** painted cast iron drain consisting of an embedding frame and a removable grate
- **Maintenance:** inspectable upper cap fixed with 2 screws
