

Steel hotel luggage rack with backrest h3102

Luggage rack with backrest in chromed steel. Foldable structure. Dimensions mm 680 x 430 x 715 h.

The **h3102 hotel luggage rack** is an extremely functional suitcase stand, designed to improve the guest experience in accommodation facilities. Made with a solid **chromed steel** structure with a 25 mm diameter, this model integrates a practical **rear backrest**: this element, in addition to ensuring greater stability for the luggage, acts as a spacer to avoid direct contact of the suitcase with the wall, preserving the integrity of vertical surfaces. Thanks to the simple design and foldable structure, the product takes up little space and can be easily stored when not in use. The **black PVC straps** ensure a resistant and durable support base, making the stand suitable for the style of any hotel room, from classic to contemporary.
