

## Steel luggage rack for hotels h43830

Folding stainless steel luggage rack with black straps for hotels and accommodation facilities.

The **h43830 steel luggage rack for hotels** is a furnishing accessory with a simple and essential design, designed to complete the setup of rooms in hotels, B&Bs, holiday homes, and resorts. The **folding structure made of stainless steel** with a polished chrome finish guarantees an optimal combination of professional aesthetics and structural resistance. The support surface consists of sturdy **black nylon and polyester straps**, materials chosen for their ability to support luggage safely without deforming over time. Thanks to the closing system, the product is extremely practical for optimizing room space and facilitating daily cleaning operations, offering the guest a functional support for managing their personal belongings during their stay.
