

## Steel perforated pan with water collection umbrella stand h2058

Umbrella stand ideal for office and shops with practical water collection tank. Available in different finishes.

An evergreen in stores and offices, this umbrella stand made of **steel**. Built to last and to ensure maximum convenience and maximum comfort thanks to water collection tank that collects raindrops umbrellas and avoids unnecessary and annoying drips.

It is a material resistant **steel**, used in many areas thanks to its strength and duration.

The steel is **powder-coated, epoxy**, powder coating solid 100% totally free of solvents. The characteristics of these particular paints are the quality of adhesion and flexibility on the support, exceptional hardness and excellent resistance to corrosion.

The base of the umbrella is made of rubber to prevent damage of the bearing surfaces and easier handling. If necessary, it can be used as a waste basket.
