

Steel platform trolley h746_36

AISI 304 stainless steel platform trolley (600x800 mm), 120 kg capacity and space-saving folding handle for professional and industrial environments.

This **platform trolley** is designed for the efficient handling of crates, packages, and equipment within warehouses, depots, and laboratories. The **AISI 304 stainless steel structure** gives the product high resistance to corrosion and ensures maximum hygiene, making it suitable even for demanding professional contexts. The integrated **folding handle** on the short side allows for a drastic reduction in bulk during periods of non-use or for transport on vehicles.

Technical features

- **Type:** Platform trolley
- **Material:** AISI 304 stainless steel
- **Configuration:** Folding handle mounted on the short side
- **Movement system:** 4 rubber wheels, 125 mm diameter, 2 of which are equipped with brakes
- **Protection:** Non-marking grey rubber ring
- **Mechanics:** Rolling on bearings
- **Maximum capacity:** 120 kg
- **Platform dimensions:** 600 mm (W) x 800 mm (D)
- **Total trolley dimensions:** 600 mm (W) x 900 mm (D) x 970 mm (H)
