

Steel retractable belt stanchion h407_05

Stainless steel retractable belt stanchion. Belt length: 2.3 meters. Belt available in various colors.

Retractable belt stanchion designed to delimit access within shops, banks, and post offices, but its design also makes it suitable for refined and formal contexts such as airports, public offices, and museums. Stainless steel stanchion equipped with a **2.3-meter extensible and retractable belt**. Belt stanchion with a perfect balance between base and post to ensure maximum stability; furthermore, the outer perimeter of the base itself is lowered and rounded **to limit potential tripping**.

Technical features:

- Post material: stainless steel
- Cast iron base
- Post finish: polished or satin
- Belt length: 2.3 meters
- Belt available in various colors
- Height: 980 mm
- Post diameter: 63.5 mm
- Base diameter: 340 mm
- Weight: approximately 13 Kg

*** Upon request and subject to quote, the belt can be requested in different colors and with the addition of A4 brochure holders or A3 displays.*
