

Steel service trolley h09_255

Multipurpose service trolley in AISI 304 stainless steel with 4 soundproofed shelves and bumper wheels. Dimensions 91x57x172 cm for professional use.

The **h09_255** multipurpose service trolley is a logistical solution designed for operational efficiency in HoReCa environments and industrial contexts. Made with a solid 20x20 mm tubular structure in **AISI 304 stainless steel**, this model ensures maximum corrosion resistance and long-term durability, even in the presence of constant humidity. The configuration with four satin-finished and soundproofed shelves allows for the transportation of high volumes of materials while reducing acoustic impact, a decisive factor in dining rooms or hospital wards. Maneuverability is ensured by large-diameter multidirectional wheels, protected by angular bumpers to preserve the integrity of the surrounding furniture.

Technical features

- **Material:** AISI 304 stainless steel (structure and shelves)
- **Frame:** 20x20 mm square section tubular
- **Shelves:** 4 folded levels, with satin finish and soundproof system
- **Movement system:** 4 multidirectional wheels Ø 125 mm
- **Safety:** Non-marking rubber bumpers on the corners
- **Overall dimensions:** L 91 x D 57 x H 172 cm
