

## Steel sheet planter h28717

Planter for urban furniture made of laser-cut shaped steel sheet. Color: Corten. Dimensions: W.50 x D.50 x h.60 cm. Italian product.

**Design planter** ideal for avenues, squares, parks, streets and condominium courtyards. Structure made entirely of laser-cut shaped steel sheet. The **galvanized steel** parts first undergo a pre-treatment process of degreasing impurities through vapor solutions, then dried and subjected to painting operations using electrostatic guns that cover the pieces with powder paint in a floury state. Subsequently, the product is subjected to polymerization in an oven, a process that allows the powder to solidify by baking at a temperature of 180°/200°C in a hot air circulation oven. At the end of the production process, the internal container is subjected to a **hot-dip galvanizing process according to UNI EN ISO 1461 standards** by immersion in a bath of hyper-pure molten zinc.

### Technical features:

- Material: galvanized steel sheet thickness 30/10
- Color: "Corten type"
- Anchoring: flush to the ground
- Dimensions: 50x50x h.60 cm
- Made in Italy

## INFORMATION

- warranty 1 anno
- Length in millimeters 500.000000
- Depth in millimeters 500.000000
- Height in millimeters 600.000000
- Planter material metallo
- shape square
- Height 60 cm
- Width 50 cm
- Depth 50 cm
