

Steel task chair h449_143

Task chair with mesh backrest and lumbar support. Dimensions: 70 x 68 x H 100 to 112 cm.

The **H449_143 steel task chair** is designed to guarantee **comfort, ergonomics and resistance** during prolonged use in office or work environments. Thanks to its **sturdy steel structure** and **wide seat with ergonomic padding**, it ensures support even for use up to **12 continuous hours**.

The **breathable mesh backrest** with **adjustable lumbar support** helps maintain correct posture, promoting well-being throughout the working day. The **synchro** mechanism between backrest and seat allows for fluid and natural movement, while the **gas height adjustment** allows you to easily adapt the chair to your body shape.

The seat is made of **PPL reinforced with steel bars** and **T25 foam h 6 cm**, designed to last over time without losing its shape. The **Ø50 mm nylon wheels** guarantee good smoothness on standard surfaces. The **armrests are not included**, but can be added as an optional extra.

The chair complies with **EN 1335 standards, Legislative Decree 81/08** and is **TÜV** certified, guaranteeing safety and quality. With a **maximum capacity of 130 kg** and **generous dimensions (size L)**, it is ideal for intensive professional use.
