

Steel tray trolley h215146

Professional stainless steel tray trolley (59x67x102 cm) for 12 GN 1/1 trays or 6 GN 2/1 trays. Robust structure with 4 braking wheels and upper work surface.

The **stainless steel tray trolley** is an essential piece of equipment for the logistical efficiency of restaurants, hotels, and large reception halls. Designed for transporting and storing Gastronorm trays, this model combines an extremely solid structure with the practicality of a mobile station. Made entirely of **stainless steel**, it guarantees maximum hygiene and corrosion resistance, meeting rigorous HACCP standards. The rail configuration is designed for maximum versatility, allowing it to accommodate both **GN 1/1** and **GN 2/1** trays. Furthermore, the height of approximately one meter and the smooth top finish allow the trolley to be used as a **supplementary work surface**, optimizing every centimeter of the professional kitchen.

Technical features

- **Material:** professional stainless steel
- **Total dimensions:** L. 595 x D. 670 x H. 1025 mm
- **Capacity:** 6 rails (holds 12 GN 1/1 trays or 6 GN 2/1 trays)
- **Distance between shelves:** 110 mm (ideal for containers of different depths)
- **Maximum load:** up to 120 kg total capacity
- **Handling:** 4 multi-directional drive wheels
- **Safety:** braking system on all wheels for total locking
- **Upper surface:** smooth and hygienic support surface

* Trays *NOT* included in the standard supply.

INFORMATION

- **Length in millimetres** 595.000000
- **Depth in millimetres** 670.000000
- **Height in millimetres** 1025.000000
- **size pans** GN 2/1 - 65 x 53 cm
- **capacity** 6 teglie
