

Steel tray trolley h220154

Professional nickel-chrome steel tray trolley for 7 GN 2/1 containers (65x74x101 cm). Robust structure with front/rear safety lock, top shelf and rubber braking wheels.

The **professional tray service trolley** is a high-end logistics solution designed for hotels, canteens and large kitchens. Made of **nickel-chrome steel**, this model offers exceptional stability thanks to the 25.8 mm square section tube frame. The structure is specifically sized to accommodate **7 GN 2/1 containers** (maximum depth 65 mm), ensuring maximum safety during movement thanks to the **double locking mechanism** (front and rear) which prevents accidental sliding of the trays. The ergonomic height and the presence of a top shelf transform this trolley into a multi-functional mobile unit, ideal for transport and rapid preparation in collective catering contexts.

Technical features

- **Material:** Nickel-chrome steel (durable and hygienic)
- **Frame:** Square section tubes 25.8 x 25.8 mm
- **Capacity:** 7 Gastronorm GN 2/1 containers (65 mm depth)
- **Distance between rails:** 80 mm (optimal for air circulation)
- **Safety:** Container lock on front and rear
- **Load capacity:** Total 90 kg (12 kg per insert / 18 kg top shelf)
- **Handling:** 4 swivel rubber wheels Ø 100 mm (2 with brake)
- **Shelf dimensions:** W. 590 x D. 670 mm
- **Total dimensions:** W. 655 x D. 740 x h. 1010 mm
- **Weight:** 15.8 kg

* The trolley is delivered disassembled (easy assembly). GN containers not included.

INFORMATION

- **Length in millimetres** 655.000000
- **Depth in millimetres** 740.000000
- **Height in millimetres** 1010.000000
- **size pans** GN 2/1 - 65 x 53 cm
- **capacity** 7 teglie
