

Steel tray trolley h464_241

Rack trolley for the **storage and transport of stackable trays**. Made of **epoxy-coated steel**, it guarantees a load capacity of up to **100 trays** (60 kg capacity). Compact, robust and easy to maneuver, it is the ideal solution for maintaining order in canteens and professional kitchens.

The **tray rack trolley** is the essential accessory to optimize logistics and order in canteens, buffets and large kitchens. Designed for the vertical storage of stackable trays, it allows you to manage up to **100 units** in an extremely small space, facilitating both the distribution of clean trays and the collection of those ready for washing.

The structure is made of **epoxy-coated steel**, a treatment that gives the trolley superior protection against moisture and daily wear typical of crowded catering environments. Despite its low weight of only 9.7 kg, the trolley boasts a capacity of **60 kg**. Movement is smooth and safe thanks to the **large 12.7 cm swivel wheels**, two of which are equipped with brakes to ensure stability during loading and unloading operations.

Technical features

- **Material:** Epoxy-coated steel (anti-corrosion)
- **Storage capacity:** Approximately 100 stackable trays
- **Maximum capacity:** 60 kg
- **Movement:** 4 swivel wheels Ø 12.7 cm
- **Safety:** 2 wheels equipped with parking brakes
