

Steel umbrella stand and waste paper bin h8618

Perforated umbrella stand in anti-UV powder-coated steel with scratch-resistant plastic base. 28-liter multifunctional design for offices and public spaces.

This **professional umbrella stand** combines refined aesthetics with maximum operational functionality for high-traffic contexts. Featuring a **perforated structure** that facilitates internal ventilation, the object is designed to integrate into formal and commercial environments such as offices, shops and gyms. Its structural versatility also allows it to be used as a **practical waste paper bin**, optimizing space management.

The **anti-UV powder-coated steel** construction ensures superior resistance to fading and wear, while the black plastic base ensures total insulation from floor cleaning chemicals.
