

Steel waste bin with pedal h215_200

201 stainless steel waste bin, 50L capacity, with pedal, lid and 2 wheels Ø75mm. Ideal for professional kitchens and canteens.

The waste bin is a hygienic and functional solution designed for high-traffic environments such as pizzerias, canteens and fast-food outlets. It allows for organized waste management in compliance with sanitary standards, facilitating cleaning operations and workspace management.

The structure is made of **0.8 mm thick 201 stainless steel**, ensuring resistance to corrosion and durability over time even in humid and high-use environments. The **pedal and lid closing system** allows for odor containment and maintains hygiene. The **side handle** facilitates manual handling, while the **two 75 mm diameter wheels** allow the container to be moved with ease.

Technical features

- Material: 201 stainless steel
- Thickness: 0.8 mm
- Capacity: 50 L
- Opening system: pedal and lid
- Side handle
- Wheels: 2 pieces with 75 mm diameter
- Dimensions: height 600 mm × diameter 350 mm
