

Step stool for medical offices h708_15

Step stool for clinics with reinforced frame, 250 kg load, non-slip surface. Dim. 30.5×40.6 cm, h 22.5 cm.

Step stool designed specifically for clinics and medical offices, where facilitated access to raised surfaces represents a functional and safety requirement. The product guarantees operational stability thanks to the **reinforced frame** and the **non-slip surface of the step**, essential elements in healthcare contexts where the risk of slipping must be minimized. The structure supports a **maximum load of 250 kg**, covering the needs of adult users and patients with different physical builds.

Technical features

- Reinforced frame
- Maximum load: 250 kg
- Non-slip surface
- Step surface: 27.9 × 35.6 cm
- Overall dimensions: 30.5 × 40.6 cm
- Height: 22.5 cm
