

Stool for medical clinics h528_19

Stool for medical and dental practices with saddle seat. Height adjustable from 55 to 73 cm via lever with gas mechanism. Mobile base with wheels.

Swivel stool for furnishing clinics, medical offices and dental practices. Specifically designed to ensure maximum comfort and maintain correct posture. Thanks to the **ergonomic saddle-shaped seat**, the sitting position is optimized and back strain is minimized. It also allows you to perform your work with total freedom of movement, as it is equipped with a **sturdy base with swivel wheels**. The **seat is padded with foamed polyurethane and covered in resistant, high-quality material**. It is also possible to **adjust the seat height using a gas mechanism with a manual control lever**.

Technical features:

- Base diameter: 61 cm
- Seat height adjustable from 55 to 73 cm via manual lever
- Black painted aluminum base
- Double swivel wheels, with brake, Ø 50 mm
- Seat with foamed polyurethane padding
- Load capacity: 130 kg
- Available in multiple colors
