FAQ:

1. **Is the stool also suitable for beauty centers?**
Yes, it is suitable for medical practices and beauty centers.
2. **Is the seat height adjustable?**
Yes, via gas spring, from 42 cm to 56 cm.
3. **What type of base does it have?**
A plastic base with feet (Ø 60 cm) for a stable structure.
4. **What is the maximum supported load?**
The permissible load is 120 kg.

5. Is the seat available in multiple colors?

Yes, the synthetic leather seat is available in a wide range of colors.

Mini buying guide:

To choose the most suitable stool for a medical practice or beauty center, first evaluate the stability: if you prefer a stationary seat without movement on wheels, a base with **feet** is a functional choice. Then check the height range (**42–56 cm**) to ensure correct posture relative to the work surface; the **gas spring** makes adjustment simple and fast. Also consider the base footprint (**Ø 60 cm**) and the seat dimensions (**Ø 34 cm**) in relation to the available space. Finally, choose the upholstery and color: **synthetic leather** offers comfort and the **wide range of colors** helps you harmonize the stool with the environment.

Stool for medical practices with feet, adjustable beauty center stool, stool with gas spring, stool height 42 56 cm, synthetic leather stool colors, stool base Ø60, stool seat Ø34, H930_84.
