

Storage cabinet for 9/12 gas cylinder cage h1043_28

Outdoor storage cabinet for 9/12 gas cylinder cage. Dimensions: 1200x1300x2000h mm. Without base, 12/10 galvanized steel, ramp included, and 865 kg capacity.

The **storage cabinet for 9/12 gas cylinder cage** (model h1043_28) is a heavy-duty professional structure, designed specifically for housing, storing, and protecting compressed gas containers inserted in cages or stored individually outdoors. Created for **industries, workshops, hospitals, laboratories, and technical gas depots**, this device is aimed at company safety managers and hazardous materials logistics managers. The system solves the operational problem of **secure outdoor storage of entire cages and cylinders**, preventing access by unauthorized personnel and protecting the load from atmospheric agents. The structure is entirely built in hot-dip galvanized steel with a thickness of 12/10, features a swing access door, and is configured **without a floor base** to allow direct entry of cages at ground level. Thanks to continuous natural ventilation, the cabinet does not allow gas residue to stagnate, ensuring maximum environmental safety.

Technical features

- **Total overall dimensions (WxDxH):** 1200 x 1300 x 2000 mm
- **Guaranteed maximum capacity:** 865 kg
- **Base configuration:** without base (allows ground-level access)
- **Cylinder storage capacity:** 12 cylinders of 50 liters each (cylinder cage excluded, sold separately)
- **Cylinder compatibility:** maximum diameter Ø 230 mm
- **Access configuration:** 1 swing door mounted on an extremely robust load-bearing frame
- **Structure material:** hot-dip galvanized steel with 12/10 thickness
- **Anti-intrusion security devices:** sealable and lockable closing system to prevent unauthorized removals
- **Climate protection:** protruding roof designed to protect the contents from atmospheric agents
- **Gas risk prevention:** structural configuration that does not allow gas residue to stagnate
- **Fixing systems:** suitable and prepared for stable anchoring to the ground
- **Internal organization:** preparation for internal subdivision into lanes complete with safety chains
- **Logistics accessories included:** complete with ramp to facilitate storage operations
- **Empty handling:** palletizable structure to facilitate transport
- **Supply note:** internal cylinder cage sold separately
